

Filling, Closing & Palletising Systems

## BAG FILLING AND CLOSING LINE

IGF™

## FOR PP-WOVEN BAGS

HIGH SPEED

MORE THAN  
900 BAGS / H  
WITH 50 KG

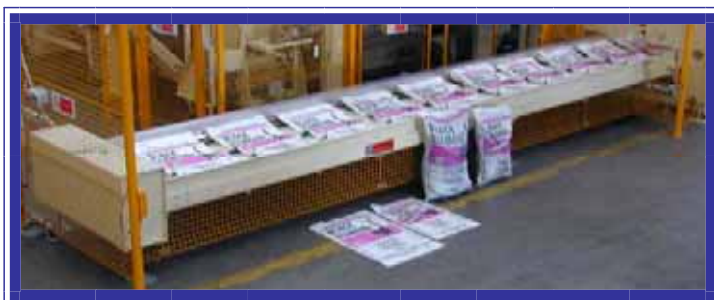

AUTOMATIC  
FORMAT CHANGE  
IN 90 SECONDS

The **CONCETTI GROUP**, world's leader in the design and manufacture of turn-key packaging solutions for bags, is proud to present a specific application of **IGF™**, the multifunction bag filling and closing system for pre-made bags.

The recently supplied line is optimized to bag coal showing these characteristics:

<u>Product:</u>	<b>coal in pieces (up to 10 cm)</b>
<u>Bag closure:</u>	<b>sewing</b>
<u>Bag type:</u>	<b>pre-made</b>
<u>Bag material:</u>	<b>pp-woven, laminated pp-woven pp-woven bags with liner</b>
<u>Bag format:</u>	<b>20 — 40 — 50 kg</b>

All the machines of the **IGF™** series feature a self-adjustable bag holder that allows automatic bag format change-over without the operator's intervention.

BAG STORAGE  
TROLLEY  
WITH 10 POSITIONS

For an increased operational autonomy
