

Filling, Closing & Palletising Systems

ATEX CERTIFIED

FILLING & BAGGING SYSTEM IGF™

FOR VALUE-ADDED FINE POWDERS

**EXTREME
PRECISION**

**SPECIAL DESIGN FOR
POWDER
PRODUCTS**

**AIRTIGHT
BAG CLOSURE**

The **CONCETTI GROUP**, world's leader in the design and manufacture of turn-key packaging solutions for bags, presents a new application of **IGF™** the fully automatic filling and closing system for pre-made, open mouth bags.

- Product: **LIGHT STICKY POTENTIALLY FLAMMABLE POWDERS**
- Bag type: **FLAT, PAPER BAGS WITH PE-LINER**
- Bag closing: **SEALING OF THE INNER PE-LINER + SEWING WITH APPLICATION OF CREPE PAPER**
- Production: **120 BAGS/HR**
WITH DEAERATION PROBES

The picture shows:

***CHECK WEIGHER
WITH SCREW-FED MICRO-
DOSING SYSTEM***

***Guarantees extreme precision of the bag weight
in compliance with the OIML R61 requirements.***

IGF™ is constructed to work in areas with **ATEX certification** (zone 20-21-22).
